

```
1  #include <stdio.h>
2  int main()
3  {
4      int p,c,m,avg;
5      printf("enter physics marks:\n");
6      scanf("%d",&p);
7      printf("enter chemistry marks:\n");
8      scanf("%d",&c);
9      printf("enter maths marks:\n");
10     scanf("%d",&m);
11
12     avg= (p+c+m)/3;
13     avg>=50? printf("you are eligible for admission"): printf("you are not eligible for admission");
14     return 0;
15 }
```
